The "Guardian" Again.

The organ par excellence of the Government, the *Guardian*, under the inspiration of the ministerial 800-pounds of James Bay, in its last issue, has undertaken to discuss the question of "Defeating the Ministry". In doing so it has conjured up every imaginable reason for keeping that illustrious body in power; and to render its views still more acceptable, has resorted to the undignified course, for a Government organ, of calling hard names and attributing unworthy motives to the "Opposition". The whole article, viewed as a semi-official utterance, is little better than nonsense, of which the pitch and substance is—don't turn out the Ministry! Now the very fact of implying the members not to turn out the Ministry, is convincing proof to the veriest tyke in politics that Messrs. McCraight, Robertson, Holbrook & Co. have no political following; and that alone is sufficient evidence of their unfitness to remain at the head of affairs; and will be the justification of the majority of the members for not recognizing them as their legitimate leaders. If Gov. Trutch had entrusted the formation of the Government to men competent to lead, they would have refused to accept portfolios until they were certain of receiving a liberal and generous support from a large majority of the members of the Assembly; and when they had secured such support, they would have formed such combinations as would have secured to the country a strong and vigorous Government, competent in every way to command public confidence, and as the same time, to manage public affairs both economically and judiciously. As matters have turned out, however, Gov. Trutch has made a mistake, and either before or after the meeting of the Legislature will get undoubted proof. Now to continue the present Ministry would be merely to perpetuate the blunder; to defeat them and drive them from power at once is the shortest and only practical way of ridding the Government in accordance with the well-understood wishes of the people, and in the real interests of the country. It, as the *Guardian* has said, the public business will be delayed by the formation of a new Ministry, we answer that such will not be the fault of the people nor their representatives; for they were not consulted, nor even asked who they would support. Now no one will deny that it is the undoubted right of the people to form their own Government, and as the McCraight Ministry do not possess their confidence, they have an equally clear and unquestionable right to turn them out. Then the people will have, for the first time in this Province, a Government of their own choosing. The delay that may occur after the meeting of the Legislature can be by no manner of reasoning be laid at the door of the members; but at that of the Ministry. There is no good reason why the Legislature should not meet for despatch of business, at the very latest, in the first week of January. But to suit the caprice, and we must say dilatoriness or incapacity of the Ministry, it is protracted till January 25th, and when it will meet for despatch of business no one knows. Now, if the McCraight Ministry wish to meet the views of the country, they had better resign at once. That would save the delay in the formation of a new Ministry after the meeting of the Legislature. It would get over the difficulty sooner than by any other means. If they don't do it, of course they must be held responsible for sacrificing the public interest, and for failing the constitutional penalty of being ejected from power by a direct vote of the Assembly. The *Guardian*, however, deplores "defeating the Ministry" "to oblige two or three leading office-seekers and their satellites". But we say, is it not the right of the country to say what "office-seekers" shall hold the reigns of power? And if it is not an undoubted fact that as yet they have had no opportunity to say who they shall be? And is it not natural that they should select the men who have advocated and are familiar with Responsible Government, rather than "the new Ministry," that, according to the *Guardian*, hold that it is "an entirely novel and untried form of Government"? Could Responsible Government by any possibility "have a fair trial" in the hands of those who call it a "novel and untried form of Government"? Office-seekers, indeed! The real office-seekers are such as those who form the new Ministry, and who are like the hangmen, non-combatants, and deserters of an army, who would put in an appearance when the battle is over and won, and claim the reward of the veteran soldier, and assert an exclusive right to the highest honors awarded for faithful service to the country. Out speak each office-seeker as these!

India.
The Englishman, of Calcutta, gives the following in regard to the recent assassination of the Chief Justice: A murderous assault was committed this afternoon at about eleven on Mr. Chief Justice Norman.

On the 22nd an official announcement appeared of the death of the Chief Justice at 12 o'clock this morning, and the funeral took place at five p.m. that day, the remains being followed to the grave by a large cortège.

The steamer Holland arrived at Calcutta on the 2d ult., thirty-three days out from Liverpool, including two days and five hours occupied in passing through the Suez Canal. The ship is said to be the quickest passage on record between the two ports.

MORTGAGE SCHOOL

It is stated that the Russian Cabinet gives very favorable consideration to a plan for a ship canal between the Caspian and Black seas, the distance being 730 miles, and the estimated cost \$81,000,000. The Caspian is now surrounded by Russian territory on the west, north and east, but is in the midst of a dry basin inhabited by a population which has neither the intelligence, wealth nor density to offer just rewards to such a great enterprise. The large salt lakes with no outlet to the sea, all have extensive tracts of desolate land in their vicinity. If the rainfall were abundant their waters would force a way to the ocean. If Russia could afford to spend \$80,000,000 on a canal from the Caspian to the Black Sea, the United States and England could afford to spend \$400,000,000 on a canal through the Isthmus of Darien.

IMPORTANT DOMINION MEASURES.—THE IRISH GUARDIAN.

The representative of the *Guardian* in Canada writes: "It is understood that very many important bills will be passed during the next session, some of which will relate to affairs in British Columbia and Vancouver. A Militia Bill, as well as one relating to the Public Works, are not among the least."

FROM THE MAINLAND.—THE ENTERPRISE.

Winnipeg, Dec. 10.—Clément, the newly elected representative from Montana, is endeavoring to secure a land title to Indian land in Montana, for white settlers on those reservations.

The Attorney General has said nothing to the President about leaving the Cabinet, nor has the President said anything to him on the subject.

Members of Congress and others have freely expressed themselves in favor of a change, and are endeavoring to effect it. The Bill introduced by Senator Edmund to regulate the civil service, provides that appointments to all offices except postmasters and such as are required by law to be made by the President, with the consent of the Senate, shall depend upon open competitive examination; but that a board of commissioners shall be appointed for service, unless so removed by the President, with the consent of the Senate.

CHICAGO, Dec. 11.—The *Times*' Washington special says, to give details of a plan on foot by Democrats and anti-Grant Republicans for the impeachment of the President, is utterly devoid of truth, and one of its rockeable fabrications.

Washington, D. C.—"We can't afford even a gruit, in return for the choice language, as is to be seen in yesterday's *Colonist*.

NANAIMO ASSIZES.—Chief Justice Begbie went in the Douglas yesterday to Nanaimo to hold a Court of Assizes.

FOR NANAIMO.—The steamers Isabel and Grappler left for Nanaimo at 7 o'clock yesterday morning.

Hugh Stanley Elliott left in the Douglas yesterday for Coombs with the writ for the Ottawa election.

FOR THE SOUTH PACIFIC.—The North Pacific, Capt. Starr, left at noon yesterday for the above ports.

THE ISLANDS OF THE HEAVEN TO THE THREE.—The alarm news which we publish this morning, and which has appeared for the past week or so, concerning the illness of the Prince of Wales, would lead us to be prepared at any moment, to hear of the death of His Royal Highness. His eldest son, who would be the heir to the throne in case of the death of the Prince of Wales, is now about eight years old. His Majesty, however, who belongs to a family all of whom have lived to a ripe old age, is likely to retain the ruler of the British Empire, until such time as the young Prince would be competent to succeed her; in that case there would be no Regency.

SANDWICH ISLANDS.—In consequence of the loss of the Arctic whaling business may be said to be at a stand-still. The large stock of ship chandlery, stores and dry goods, intended to supply the whaling fleet, and the Fall trade which always follows their arrival, will have to remain on hand another year. The custom-house stores are literally groaning under the weight of liquors stored there, in which, now, cannot be consumed. The direct loss which must accrue to the mercantile community this season, must be very serious, to say nothing of the indirect loss in which all in Honolulu must more or less share.

LOWE FISHING NEWS.—The master of the barque Jessie Stowe was charged in the Police Court, New Westminster, last week, with assaulting one of his crew; a counter charge was preferred by the "crew," and the case was postponed. The "gallant" ship went on her way to Valparaiso a few days ago. Mr. Bushby has gone up to Yale to be present at the election of a member to represent that district in the Commons. The little craft Union has been raised and is again in running order. The Collector, A. S. Finlayson, Esq., has received instructions to put the Custom House in good trim. The Hope left yesterday morning for Yale, her last trip of the season.

FOR THE EAST COAST.—The Douglas, Capt. Clark, left at 6:30 o'clock yesterday morning for Comox, Cowichan and Nanaimo, etc., with thirty passengers and a good freight. The following were among the passengers: Chief Justice Begbie, Registrar O. E. Pooley, Sheriff Elliott, Dr. Trimble, Mr. and Mrs. E. Mariner, Mr. and Mrs. J. Sabiston, Miss Sabiston, Messrs. Boscowitz, E. Johnson, Price, Olaholm, Mitchell, Mahoney and F. Boddy.

THE FASHION.—Messes. Turner, Beeton & Tunstall, of London House, received yesterday a large shipment of autumn fashions, amongst which are Alexander's Dolly Varden Hat, the popular novelty in Europe this season; Dolly Varden costumes, Dolly Varden sashes and caps; also choice lace goods, waterproof costumes, &c.

THE WOMAN SUFFRAGE.—An Ottawa paper of late date publishes the following: We learn that a special deputee from Washington imminent that the forthcoming decision of the test case on woman's suffrage made up in the District of Columbia will recognize the fact that women are entitled to vote under the Fourteenth Amendment, and that it only requires Congressional legislation to point out how this privilege can be made available in order to have it secured to American women.

EUROPE.

We have been industrious to obtain information concerning the surveying of the Saskatchewan district, and for this purpose we have received the following note from Sir Jno. A. Macdonald:

OTTAWA, NOV. 17th, 1871.

DEAR SIR.—There are, I believe, no surveying parties at work in the Saskatchewan. The whole surveying strength is employed in finishing the survey of the Province of Manitoba.

The Inter-oceanic Railway will doubtless be the subject of discussion and, probably, of legislation, during the next session of the Dominion Parliament.

I am, dear sir, Your obed't servant,

JOHN A. MACDONALD.

To—BRITISH COLUMBIA AND THE PEOPLE OF ONTARIO.

We have had quite an interview with many prominent members of the Ontario Agricultural Association. Our conversation was on the subject of British Columbia's fruit growing and the adaptability of the Fraser River Valley to this department of Agriculture.

There is an opinion widely spread that fruit growing in forest soil is systematic plan of Canadian migration to British Columbia will soon be established. These immigrants will be the men for a new country. Undoubtedly the most desirable settlers for your province are native Canadians; these are the best material for new countries. Understanding the peculiar difficulties to be encountered, he goes to work and knows how to perform it.

This society, through Planetus, is anxious to open up a correspondence with any existing associations which may now be in operation in your province. It is not known here what are your characteristics of soil and products for fruit raising, as a specialty, &c., all the information available is contained in a circular from the association here.

A special from London says, tremendous excitement prevailed in Madrid on the reception of the President's message relative to the Cuban difficulty.

The Government has resolved to maintain a firm attitude; reinforcements of thirty thousand troops, two additional generals, and four ironclads to be immediately despatched to Cuba.

PARIS, Dec. 9.—A change in the French Government is imminent. Thiers will resign to the President in favor of Duke de Broglie, who has agreed to this movement with the Duke and all influential members of the Right approve of it. The Orleans Prince will not take their seats until Thiers' plan is carried out. The change will be effected directly; all details have been arranged.

The cause of the change is that Thiers is unable to withstand the Right, which has been returned from the Provinces and is very hostile, and he has fears of the constantly increasing power of the imperialists in the army.

PARIS, Dec. 10.—There is disagreement between the Thiers and the Orleans Princes, respecting the right of the latter to their seats in the Assembly.

BOSTON STATES.—Washington, Dec. 10.—Clément, the newly elected representative from Montana, is endeavoring to secure a land title to Indian land in Montana, for white settlers on those reservations.
